### **1. Business Performance**

#### **(1) Qualitative Information on Consolidated Business Performance**

During the first half, the six-month period from April 1, 2012 to September 30, 2012, of fiscal 2013, uncertainty surrounding future operating conditions continued to cloud the Japanese economy. Despite a gradual recovery from the Great East Japan Earthquake, this uncertainty was largely attributable to a variety of factors including anxiety about overseas market derived from Europe's debt problem, and weaker domestic productions and exports reflecting a stagnation of economic growth in emerging countries such as China.

In the apparel retail industry, a positive turnaround in consumer spending provided bright spots. However, harsh operating conditions continued through the period under the review. Sales of fall items were delayed; the dispersed commencement of the summer clearance sales prolonged the sales period and summer heat continued historically long this year.

Under these circumstances, the UNITED ARROWS Group has established the management policy for the fiscal year March 31, 2013. The policy is to secure record high consolidated ordinary income by strengthening the precision of collaboration between Products, Sales, and Promotion Departments, differentiate the Group from its competitors, and consistently pursue sales and profits. Putting information gained by the Sales Department through communication with customers to the Product Department and delivering products that accurately match customer needs. In addition to reinforcing its sales capabilities on improved store management, the Sales Department took steps to prevent customer complaints and improve the product display skills. The Promotion Department commenced advertising activities that appropriately reflected the each business' attributes as well as the social and market trends. Efforts were aimed at reaching potential customers and securing the loyalty of a growing customer base.

During the period under review, the
